

# CNV61R1500

Increase the efficiency and capacity of your production

## BENEFITS

- Premium solutions of heavy payload transportation
- High industrial quality made in Denmark
- Transport of EUR, US or half sized pallets
- Open ends or one closed
- Build in sensors for pallet detection
- PLC controller and servo technology

### OPTION

*Pur- Coated rollers*

## BUILD TO LAST

Do you want to optimize your internal logistics, production lines or packing stations? CNV61R1500 is an option. Our conveyor enables the mobile robot to pick up and deliver pallets with a heavy payload up to 1250 kg.

## CONTACT

CEO

## GENERAL

Conveyor with aluminium chassis  
Type CNV61R1500  
Part No. 423022- 0006

## DESIGNATED USE

To receive and unload EUR- Pallets from conveyor

Payload Max. 1.250 kg.

## GENERAL

Robot compatibility Omron LD1500  
Weight 150 kg  
Conveyor has built in sensors for pallet detection

## DIMENSIONS

Length 1324 mm.  
Width 884 mm.  
Height 190 mm.  
Height from floor to top rollers 500 mm  
Roller pitch 90mm

## PERFORMANCE

Speed 1 m/s

## PALLETS

EUR - Pallet dimension 1200mm x 800mm  
Half pallets dimension 600mmx800mm x2 pcs.  
US pallets dimensions 101.6cm x 121.9cm or 106.7cm x 106.7cm.

## OPTIONS

PUR- coated rollers
