

How should your palletizing be automated?

CoPal Basic

Basic element for you, who supply the robot and control yourself

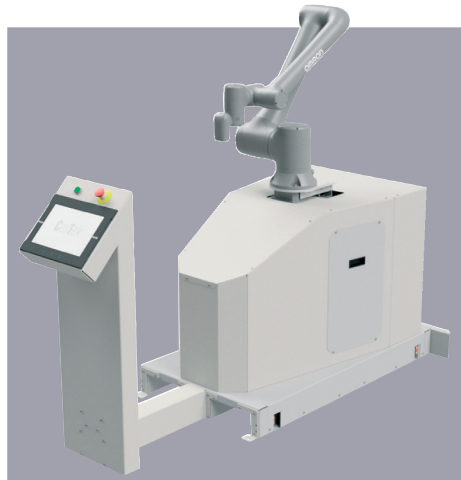

- CoPal-frame in two colors
- All metal parts and lifting-column (90-180 cm)
- Fuse, cable, freight and documentation package

CoPal Pro

A flexible plug & play-solution for your own cobot

- Includes all in CoPal Basic
- Complete electrical panel
- PLC-based solution
- Configurable via HMI
- Intuitive operator set-up

CoPal Enterprise

Complete solution for you, who want to get started right away

- Includes all in CoPal Pro
- TM12 cobot from Omron
- Standard-tool for boxes

Automation for your needs

Save your employees from monotonous palletizing, so they can concentrate on other, more value-creating tasks. CesTek's automation specialists advise on which CoPal package best suits your particular experience and needs.

Popular additions

- Safety scanner with IO
- Safety fence
- Conveyor for transport of boxes
- Setting up the cell at your company
